

How to use “Yunohana medicinal bath salts”

“Yunohana medicinal bath salts” (quasi-pharmaceutical product) is a bath agent of natural origin. It is effective in maintaining body warmth after a bath and relieving stiff shoulders and back pain.

Quasi-pharmaceutical product Yunohana is effective for:

Heat rash, jock itch, bruises, stiff necks, sprains, neuralgic pain, rashes, chilblains, hemorrhoids, skin inflammation, ringworm, poor circulation, athlete's foot, back pain, rheumatism, scabies

Directions for use

- ☺ Yunohana is packed in small packages. Take out a bag of Yunohana and **soak it when taking a bath, without ripping the bag.**
- ☺ Gently shake the bag 4 or 5 times so the hot-spring components will dissolve in the water.
- ☺ Do not rub it too hard. **Discard the paper bag into a dust bin.**

Just add the bag to water!

◀ Add one bag to bath water. Gently shake the bag 4 or 5 times so the hot-spring components will dissolve in the water.

Cautions for use

- ☺ Yunohana contains natural Myoban Onsen hot-spring components. **After taking a bath, drain the water and wash out the tub with water in the same day.**
- ☺ **Do not re-use the remaining bath water with Yunohana for laundry.**
- ☺ **Do not use a bath reheating function** when using Yunohana.
- ☺ **Do not leave the bag on the edge of the bathtub.**
- ☺ Remove jewelry and accessories when using Yunohana as it contains natural hot-spring components.

Straight to a trash bin

We hope you enjoy the feeling of a hot spring in home, following the directions for use.

◀ The natural hot-spring components may discolor your bath tub. Throw the bag away immediately after use.

Other uses

Use a washbowl

▲ Have a foot bath by filling the washbowl with hot water and adding a bag of Yunohana.
